The Study of Al-Balathery's Book "Countries Opening's" In Terms of Methodology and Content

*Awad Thnibat**

ABSTRACT

This study aims to investigate the significance of Ahmad Bin Yahya Bin Jaber Albalathery's book "The Countries Openings' in terms of Methodology and Content.

The researcher has introduced a brief study of the life, name, achievements, students, and the death of Albalathery. The researcher has adopted historic analytical research methodology, during his reading to the book.

The research paper discusses the text, context and the curriculum that Albalathery has adapted in his book; it also reveals the importance of his historical resources.

Finally. The researcher has presented some results and recommendations.

Keywords: Countries Openings, Albalathery, Methodology, Context.
